CUXHAVEN

History

In 2016, the Danish logistic-, offshore-, and terminal-specialist Blue Water Shipping A/S, Esbjerg and the German Shipping Company BREB GmbH & Co. KG, Cuxhaven (Liner Service Operator, Shipowner, and Port Agent) established Blue Water BREB GmbH to jointly serve all On-/Offshore Wind, Oil- and Gas-Clients in Germany.

We handle more than 3,000 wind energy components like tower sections, blades, and rotor houses annually on approximately 200,000sqm of terminal area. 10,500 mw of turbine power have been shipped via the German Offshore Industry Centre (DOIZ) in Cuxhaven since 2017.

Certified Operations

Our Seaport Terminal Handling and Logistics are approved under Lloyd's Register according to ISO 9001: Quality Management System, ISO 14001: Environmental Management System, and ISO 45001:2018: Occupational Health and Safety

BLUE WATER BREB

Port Agency

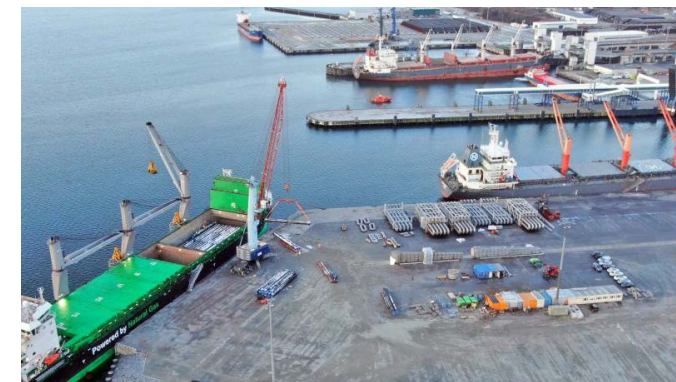

BREB offers Port-Agency Services in all German Ports and along the Antwerp-Zeebrugge-range. Appointed by both Charterers and Owners, we provide services to all vessel types during their port calls for loading and discharging operations of Project-cargoes, Generals, Breakbulk, Forest-Products and Bulk. We also arrange loading and discharging operations at various terminals for our clients.

In cooperation with Blue Water BREB we operate Cuxhaven's largest bonded customs area.

Our service includes but is not limited to full crew change arrangements, custom clearance, cargo documents, supply of bunkers and all consumables etc.
